**35th IPA CONVENTION AND EXHIBITION
ENERGY EDUTAINMENT CORNER
Hall A - Jakarta Convention Center, 18 – 20 May 2011
SPONSORSHIP PARTICIPATION FORM**

Background

As part of the effort to educate young people in introducing oil and gas industry, Indonesia Petroleum Association (IPA) plans to give brief history of oil and gas industry in Indonesia to high school and university students

Objective

To make wider perspective of high school students on oil and gas industries and its contribution to the nation.

Giving motivation to students to continue in building the nation within oil and gas expertise and to empower young students to continue embracing the industry.

To educate students as young generation to know how to utilize and maximize the efficiency of energy resource in line with their day to day activities

To change a paradigme of inefficiency energy usage, starts with young generations.

Target

Surrounding students live in surrounding area of PSCs in Indonesia
Elementary to Senior High School Students in Jakarta
University students, particularly in non-oil and gas environment
Lecturers and academic institutions
Public
