

Oil Exploration, Drilling and Production Operations
A Field Seminar
at Solo, Kuwu, Cepu, Porong and Suramadu
for Non-Geoscientists
1st - 4th August 2010

- Fee** : **US\$ 975** (*Inclusive airfares Jakarta-Solo, Surabaya-Jakarta, transportation, board-lodging, refreshments and guidebook*).
- Trip Leader:** : **H.M. Yohannes P. Koesoemo**
Sumber Daya Alam Consultant, Cepu
- Limit** : **20 persons**
- Languages** : **English & Bahasa Indonesia**

DESCRIPTION: The field trip is designed to introduce part of the upstream petroleum activities to the non-geoscientists. The participants will be introduced to the 'term' and 'jargon' use by geoscientists such as: source rock, reservoir rock, formation, structural trap, oil seep, migration, fossil, oil fields etc. You don't have to be bothered in remembering all of those, but by the end of the trip it is expected that you will understand the big picture of petroleum exploration processes. This knowledge, undoubtable, will help you in developing your career in petroleum business in the future. Moreover, you have chances also to be a 'fossil hunter'.

WHO WILL BENEFIT: All non-geoscientists employees who work in the oil industry including marketing, administration, finance, legal, facilities, secretarial, clerical, and graphics support personnel.

FIELD TRIP SUMMARY:

- **Day 1:** at 09.35 hours depart Soekarno-Hatta airport to catch GA-222 for Solo. Check in at Lor In Business Resort & Spa, Solo.
Introduction to Exploration-Drilling-Production for Non-Geoscientist
